Payment Terms and Conditions: Please be advised that payments are due upon receipt of the invoice, with any payment made beyond thirty (30) days from the billing date considered overdue and subject to interest at the maximum legally permissible rate. In the event of legal action for collection, Earthco is entitled to reimbursement of all legal fees. Failure to make payment within a thirty (30)-day period will be deemed a major breach. This proposal assumes no preexisting conditions detrimental to labor and materials during installation, replacement, and repair, specifically for work conducted by Earthco Commercial Landscape or Earthco Arbor Care, with a 30-day lead time for tree work. Earthco Arbor Care disclaims responsibility for damage to underground utilities, and work will adhere to ANSI A300 Arbor Standards. Requests for crown thinning exceeding 25% may incur additional costs and release Earthco Arbor Care from liability. The proposal excludes permits, traffic control, or engineering, with the client responsible for associated costs. Cancellation of work incurs a 20% fee, and tree work inspections must be conducted within 30 days of completion; otherwise, the work is deemed final. The client acknowledges the potential placement of a mechanics lien on the property as per the California Civil Code for non-payment within the specified terms. The signing party affirms authorization to obligate the client to these terms.
